

## PNet Supplier Management Services

- Consulting, technology, and on-going support to on-board your suppliers
  - Global Supplier Network offers access to over 40,000 suppliers
  - Provides flexible tools to enroll any type of supplier

### Your 360° Supplier Management Resource

Because supplier participation is critical to the success of any Procure-to-Pay automation project, PurchasingNet, Inc. provides end-to-end supplier enrollment consulting, technology, and support services. Our award-winning Professional Services team offers:

- ✓ The expertise needed to identify the best Supplier Management approach for your organization's unique business needs
- ✓ Access to a selection of flexible tools to make it happen on time and on budget

### Powerful Catalog Management

PNet Software is equipped with powerful Catalog Management tools that make it easy to build and maintain your own Catalog Hub, with no transaction fees to you or your suppliers.

PNet Software offers the option for Direct Catalog Connections (a.k.a. "punch-out") with your key suppliers, so that you can maintain your internal controls while gaining access to your suppliers' online shopping environments. PNet's Catalog Junction middleware allows companies to download and maintain Supplier eCatalogs without paying third-party catalog or network fees. Orders can be sent electronically to your existing preferred vendors. Catalogs can be updated through PNet Supplier Management Services or we can provide the tools to manage catalog content on your own.

PNet has provided Direct Catalog Connection to companies such as CDW®, Dell Corporation®, Fisher Scientific™, Grainger®, Office Depot®, Staples®, Standard Register®, and many others. Virtually any supplier can be brought online.

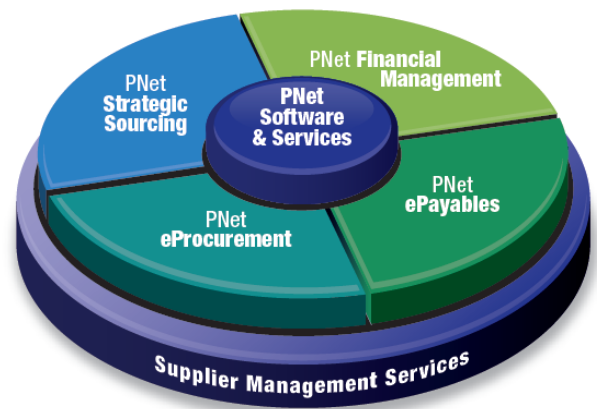

### Invoice Automation

PNet clients work with a wide variety of suppliers. Some are large, technologically advanced, and can send invoices electronically. Smaller suppliers can't or won't send e-invoices and will continue to send paper invoices. PNet on-boards a broad spectrum of suppliers and has the tools, techniques, and expertise to help on-board all suppliers ... regardless of their size and technical expertise.

PNet also offers outsourcing services that allow clients to minimize the labor-intensive work associated with back-office invoice processing.

### PNet Procure-to-Pay Solutions

Manage Spend. Cut Costs.

## PNet Supplier Management Services

### **PNet Global Supplier Network**

The PNet Global Supplier Network – Powered by OB10 enables organizations to send and receive electronic invoices using the format and file structure that suppliers choose. The PNet Global Supplier Network eliminates the cost and technical barriers of traditional e-invoicing approaches that often require strict adherence to a specific file format. Regardless of how many suppliers you have, you connect once with the PNet Global Supplier Network to receive all of your invoices.

The PNet Global Supplier Network delivers accurate, error-free electronic invoices directly from your suppliers' billing systems into your PNet solution – enabling straight-through invoice processing. With over 40,000 suppliers already enrolled in the network, many of your key suppliers may have already adopted this invoicing approach. For your suppliers who are not already members, the PNet Global Supplier Network provides complete enrollment support. With teams based in Europe, North America, and Asia, we understand the local requirements of your suppliers.

### **PNet Supplier On-Boarding & Maintenance Services**

PNet Professional Services can provide various types of supplier on-boarding support and technology prior to and during your Procure-to-Pay automation project. Following your implementation, PurchasingNet, Inc. can even deliver maintenance services to manage your supplier data and on-going supplier communications. Let our team of Supply Chain experts help you determine the blend of services and technology that is most appropriate for your business objectives, project timeline, staffing realities, and budget.

Services could include the creation of your enablement strategy and communication plan, design and preparation of your supplier website, supplier education and training, supplier outreach, and maintenance programs.

### **About PurchasingNet, Inc.**

PurchasingNet, Inc. is a leading provider of Web-based eProcurement and ePayables software to mid- to large-sized companies. The company has over 1,400 customers in Financial Services, Retail/Consumer Products, Professional Services, Media/Publishing, and a variety of other industries.
